QUALITY AND PRODUCT SAFETY POLICY

Clerprem Group Quality and product safety Policy aims at providing added value to its customers' activities to make them more competitive on the global market.

Clerprem Group's purpose is to achieve this objective by supplying high quality and safety products that satisfy explicit and implicit requirements and expectations of the customers and guarantee the safety of the final user.

Clerprem Group Management is committed in the implementation of its Policy organizing the Quality System with the help of appropriate resources, and defining specific objectives and indicators, whose periodic measurement permits the constant evaluation of effectiveness.

Clerprem Group Management reviews periodically the progress of the results, to lead the adaptation and the continuous improvement of the organization, of the Quality System and of the Safety of the created product.

Clerprem Group, with the Quality System, ensures that all its activities comply with the applicable standards ISO9001, IATF16949 e ISO/TS 22163 and with the technical standards for the Safety of the supplied product.

All the resources of Clerprem Group are aimed at the realization of the Quality Policy and of the Safety of the product and, for this purpose, the General Management delegates to its Quality Manager the responsibility of an effective management of the Quality System.
